DESCRIBE THE PRESENT AND ORIGINAL (if known) PHYSICAL APPEARANCE

This 2-story frame building was built in about 1850 as a school house. It was moved to its present site in the 1930's by the Baldwin Church and was used for a time as the church library.

The building faces south on Indian Landing Road. At the south end, the second floor projects over the first floor, forming an open porch. The overhang of the second floor rests on four Doric columns. There is a 6/6 pane window in the center at the second floor level. The entrance to the building is in the center at the first floor level, under the porch.

There are two 9/6 pane windows on each side of the building on the first floor and two 6/6 pane openings on each side of the second floor. At the north end of the building there is a tall 9/9 pane window on the first floor, a smaller window on the second floor, and at the second floor level, a door. The steps leading to the door have been removed but it is the only access to the second floor which was probably used as quarters for the school teacher.

The building is sheathed in wood siding and has a metal roof.
